PROCESSED

HAZELNUTS

ROASTED WHOLE HAZELNUT KERNELS

This product is being produced by roasting Raw Hazelnut Kernels. It can be produced at a desired roasting degree, such as Light, Medium or Dark Roasted. Similarly, the skin content of the roasted hazelnut kernels can be determined according to a desired rate, up to almost skinless. This product is mainly used in the chocolate and snack industry.

HAZELNUT PASTE

This product is being produced by milling 100% Roasted Hazelnut Kernels into a fine paste. This product is mainly used in the chocolate, biscuit, bakery and ice-cream industry.

ROASTED DICED HAZELNUT KERNELS

This product is being produced by dicing Roasted Hazelnut Kernels into milimetric calibrations, such as 2-4 mm, 3-5 mm etc with automated high-tech dicing machines. This product is mainly used in the chocolate, biscuit and bakery industry.

ROASTED DICED HAZELNUT KEORGANIC AND UTZ CERTIFIED HAZELNUTS

All of our products can be supplied as Organic BIO-EU, NOP, BIO-SUISSE certified by ECOCERT/France, as well as UTZ certified.

RAW HAZELNUT KERNELS

RAW HAZELNUT KERNELS

This product is the kernel cracked out of the hazelnut in-shell. Hazelnut Kernels are in general classified as Extra, Class 1 and Class 2. The main calibrations are 9-11 mm, 11-13 mm and 13-15 mm, while intermediary calibrations are also possible. Raw Hazelnuts are in general produced according to the Turkish Standard TS 3075, while special customer specifications are also possible.

ORGANIC HAZELNUTS

All of our products can be supplied as Organic BIO-EU, NOP and BIO-SUISSE certified by IMO Swiss AG and IMO-Turkey.
